

ONE BUSINESS. ONE CONNECTED PLATFORM.

Run your business with clarity—not disconnected systems.

Alitec helps Singapore and regional businesses connect finance, sales, purchasing, inventory, manufacturing and service operations with Odoo ERP.

Odoo implementation · Integration · Optimisation · Support

Connect the work that drives your business

Finance

Accounting, invoicing, expenses, approvals and management reporting.

Sales & CRM

Manage leads, quotations, orders, customer activity and forecasting.

Inventory

Improve stock visibility, replenishment, warehouse control and traceability.

Manufacturing

Coordinate bills of materials, planning, work orders, quality and costing.

Purchasing

Control suppliers, purchase requests, orders, receipts and vendor bills.

Service

Bring projects, timesheets, field service and customer support together.

Start with your real workflow.

We map the current process, identify gaps and prioritise a practical rollout—so technology supports the operation instead of adding another layer of complexity.

- ✓ Singapore-based delivery
- ✓ Phased implementation
- ✓ Migration and integration
- ✓ Training and support

Book an ERP discovery session

Discuss your current systems, priorities and next practical step.
