

RENOVATION COMPANY

Complete Project Operations Solutions with Odoo

Alitec's Renovation Company solution on Odoo helps project-led businesses manage the full commercial lifecycle, from quotation detail and project account setup to purchasing continuity, approvals, branch governance, invoicing, and billing completion visibility.

Project-Linked

Confirmed sales can create or link a dedicated job account immediately.

Detailed Quotations

Capture subject, contact, lead time, handover, packing.

Branch-Safe

Operating-unit checks reduce cross-branch purchasing and billing errors.

Visible Closure

Track project status, budget, and billing completion more cleanly.

• KEY CAPABILITIES •

Project Account Control

Turn confirmed quotations into job-linked analytic accounts for clearer execution.

Quotation Detail Management

Capture operational detail early so downstream teams work with stronger context.

Shared Quotation Support

Duplicate and split quotations for partner-sharing scenarios when needed.

Purchasing Continuity

Carry analytic references from sales into supplier purchasing activity.

Billing Continuity

Pass project, subject, and contact details through to invoicing.

Approval & Governance

Route reviews through configured approval levels and source-document callbacks.

Operating Unit Control

Enforce branch consistency across purchasing and vendor billing processes.

Custom Print Layouts

Produce cleaner quotation, purchase, invoice, and document outputs.

PROJECT WORKFLOW

Prepare Quote

Record contact, subject, lead time, and execution detail

Confirm & Link Job

Create or link the matching project account on confirmation

Plan & Control

Manage dates, budget, ownership, and project status

Buy with Branch Rules

Run purchasing with analytic continuity and OU validation

Bill & Close

Invoice with project continuity and review billing completion

BUSINESS BENEFITS

Connected Execution

Keep sales, buying, finance, and handover working from one job record.

Stronger Control

Reduce branch mistakes and improve approval discipline across teams.

Better Visibility

Review project status, budget, and billing progress more clearly.

Cleaner Communication

Deliver more structured customer and vendor documentation throughout the job.
